

# Corrections and Community Supervision

## 2015 Releases from Custody Three Year Post-Release Follow-Up

## **2015 Releases from Custody: Three Year Post Release Follow-up**

Return-to-custody data are presented for incarcerated individuals released from the New York State Department of Corrections and Community Supervision (DOCCS) in 2015. This includes individuals who were released from parole program facilities<sup>1</sup> as well as those released from correctional facilities.

Return rates are based on a three-year follow-up period and are analyzed relative to several demographic and legal history characteristics. Return rates among the 2015 release cohort are compared to those found for an aggregated release cohort covering 1985 to 2015. Trends in rates of return among the annual release cohorts since 1985 are also presented.

---

<sup>1</sup> These alternative treatment program facilities include the Willard Drug Treatment Campus facility and the Edgecombe Residential Treatment facility. Parole violators began participating in a 90-day alternative drug treatment program at Willard in November 2007 and in a separate 30-day alternative drug treatment program at Edgecombe in December 2008 (which was later extended to a 45-day program in April 2010). Both parolees and inmates can be housed in these facilities, but only the inmates are included in this report.

## EXECUTIVE SUMMARY

**Return Rates.** Among the 20,776 releases in 2015, there were 8,744 (42%) individuals who returned to DOCCS' custody within three years, including 9% recommitted with new felony convictions and 33% returned for violating the conditions of their release. Since the 1996 cohort, the total return rate has been fairly stable at approximately 40%, with increasing violation rates and decreasing new conviction rates (see **Table 2**, p.5 and **Figure 2.1**, p.6).

**Release Type.** Individuals released by a decision of the Board of Parole returned at a higher rate (52%) than offenders released at their conditional release dates (38%). Individuals released at the maximum expiration of their sentence, who can only return for a new felony conviction because they are not subject to return for violating the conditions of their release, had a return rate of 19% (see **Table 2**, p.5 and **Appendix A**, pp. 41-43).

**Time to Return.** Of the 8,744 individuals returned to custody, eighty-five percent returned within the first 24 months after their release (see **Table 3**, p.7). Overall, the median time to return was 11 months. The median time to return was 20 months for new commitments and 9 months for those who violated the conditions of their release. The median time to return has decreased since 1985 releases (see **Figure 3**, p.8). This has been primarily due to a decrease in the median time to return among parole violators.

**Gender.** Women had a much lower rate of return (31%) than men (43%). The difference in female and male return rates was evident for both new convictions (4% vs. 9%) and returns for violating the conditions of release (27% vs. 34%) (see **Table 4**, p.9 and **Figures 4.1** and **4.2**, p.10).

**Release Crime.** The return rate of VFOs was 44% and the return rate of "Property and Other Offenders" was 43%. Individual crimes with the highest return rates included Burglary 2<sup>nd</sup> (54%), Other VFO Sex Offenses (54%), Other Sex Offenses (54%), Robbery 2<sup>nd</sup> (53%), and Burglary 3<sup>rd</sup> (52%). Individual crimes with the lowest return rates included Manslaughter 2<sup>nd</sup> (11%), Murder (13%), and Criminally Negligent Homicide (13%) (see **Table 5**, p.13).

**Readmission Crime.** Thirty percent of the 2015 releases returned with new felony convictions committed property and other offenses, 29% were returned for drug offenses, 29% were convicted of violent felony offenses, and 13% were convicted of other coercive offenses (see **Table 6**, p.17).

**Age.** Younger individuals returned to DOCCS' custody at a higher rate than older individuals. Over half (54%) of the individuals released in 2015 who were under 21 years old returned, while 42% of the individuals 21 years of age or older returned (see **Table 7.1**, p.19).

**Criminal History.** The return rate increased as the number of prior felony convictions increased. Among the 2015 releases, 38% of individuals with no prior conviction returned within three years, while just under half (47%) of the releases with four or more prior felony convictions returned (see **Table 9.2**, p.24).

**First vs. Previous Releases.** Individuals who had no prior releases on their sentence were less likely to return (37%) than individuals previously released and returned (51%) (see **Table 10**, p.25).

**Region.** Among the 2015 releases, individuals committed from Upstate Urban counties were more likely to return (50%) than individuals from other Upstate counties in New York State (46%), Suburban New York City (41%), or New York City (35%) (see **Table 11**, p.29).

**Veterans.** Among the 2015 releases, individuals identified as verified veterans returned to prison at lower rates (33%) than nonveterans (42%) (see **Table 13**, p.34).

**Time Served.** Among the 2015 releases, those who served 12-17 months had the highest return rates (46%), while those with total time served of 240 or more months had the lowest return rates (13%) (see **Table 14**, p.35).

**COMPAS Supervision Level.** Return rates varied for individuals released to Community Supervision and supervised at different supervision levels. As one would expect, those most intensively supervised, at Level 1, had the highest return rate (59%), followed by those supervised at Level 2 (53%), Level 3 (39%), and Level 4 (19%) (see **Table 15**, p.37).

## **SECTION ONE: RELEASES AND RETURNS**

The following report presents return-to-custody information on a cohort of incarcerated individuals released from facilities of the New York State Department of Corrections and Community Supervision (DOCCS) in 2015.<sup>2</sup> Each individual was followed for three years after release. Return-to-custody data for the 2015 cohort is compared with earlier annual cohorts, beginning with 1985, as well as a cumulative cohort covering 1985-2015 releases. The return rates by several demographic and legal history variables are assessed. Finally, a partial follow-up analysis is presented for 2016 and 2017 releases.

### ***Description of the Release Cohorts***

There are several types of releases from DOCCS' facilities. For example, individuals may be temporarily released to a mental health facility, non-citizen individuals may be deported, individuals may be paroled or they may complete their sentence. As in past reports, this follow-up study includes only the sanctioned release or discharge of an individual to the community due to:

- a) the expiration of a sentence with no requirement of supervision in the community;
- b) the individual's release by authority of the Board of Parole;
- c) the individual's conditional release, which is required by statute after the inmate has served his or her maximum or determinate sentence less any earned good time credits.

The release which triggers inclusion in the follow-up is not necessarily the first time the individual was released from DOCCS' custody while serving the current sentence. The 2015 cohort includes some individuals who were released to parole supervision prior to 2015, but who then returned to DOCCS as parole violators before their re-release during 2015.<sup>3</sup>

### ***Returns to New York State DOCCS' Custody***

Although there are many ways to measure recidivism (e.g., re-arrest, re-conviction, and re-incarceration), this study defines recidivism as a return to DOCCS' custody as an inmate. Parolees returned to DOCCS' facilities to participate in specified programs are not considered returns to custody for purposes of this analysis. Once an individual is given a sanctioned release to the community, there are two ways that he or she can be readmitted to DOCCS' custody as an inmate. A *New Court Commitment* returns to DOCCS' custody after receiving a new felony conviction and a new sentence. A

---

<sup>2</sup> Incarcerated parolee releases are excluded from this analysis.

<sup>3</sup> One thousand, five hundred fifty-five of these re-released offenders had previously returned to custody to participate in an alternative treatment program, either the 90-day program at the Willard Drug Treatment Campus or an alternate location or the 45-day program at Edgecombe. These returned parole violators had been given a time assessment by an Administrative Law Judge, but served a shorter amount of time (90 or 45 days) and were re-released after successfully completing the program to which they were assigned.

*Returned Parole Violator* (RPV) is returned to DOCCS' custody to continue serving time on a remaining sentence after having violated the conditions of

supervision.<sup>4</sup> The type of behavior for which an individual can be returned to custody as an RPV includes: absconding from supervision, being arrested, and/or violating the conditions of parole supervision in an important respect.<sup>5</sup>

Return data presented in this report reflects an individual's first return to custody within three years of their release. Return rates are related to release type; parolees and conditional releases remain under community supervision until the maximum expiration of their incarceration and post-release supervision sentences and therefore may be returned to DOCCS' custody for violating the conditions of parole supervision as well as for a new felony conviction. Individuals who complete their maximum sentence, however, are not under parole supervision after their release, and can only return for committing a new felony offense.

### ***The 2015 Release Cohort***

As shown in **Table 1**, there were 20,776 releases from DOCCS during calendar year 2015. Of these, 8,352 (40%) were released to parole supervision as a result of an action by the Board of Parole,<sup>6</sup> 10,259 (49%) were released to parole supervision on their conditional release date, and 2,165 (10%) were released after serving the maximum time on their sentence.

---

<sup>4</sup> New York currently has a mixed sentencing structure. Over half of the 2015 releases followed for this report (59%) were sentenced under New York's determinate sentencing policy, serving 6/7 of the sentence and then serving imposed post-release community supervision. Individuals who received indeterminate sentencing serve some portion of their sentence in prison and then remain under parole supervision until the maximum expiration of their sentence. For more detail, see Article 70, Sentences of Imprisonment, New York State Penal Law.

<sup>5</sup> For additional information on warrant type associated with returns to custody, please see: "Community Supervision Legislative Report: 2019".

<sup>6</sup> Besides individuals who were first-released by decision of the Board of Parole after serving their minimum sentence, included in these releases are individuals who were re-released back to Community Supervision after participating in an alternative drug treatment program as a returned parole violator as well as parole violators re-released to post-release supervision whose release date was determined by an Administrative Law Judge.

**Table 1**  
**2015 Releases: Returns to Custody by Type of Release**

RELEASE TYPE	TOTAL RELEASES		RETURNS		NO RETURN	
			#	%	#	%
<b>TOTAL</b>	<b>20,776</b>	<b>100.0%</b>	<b>8,744</b>	<b>42.1%</b>	<b>12,032</b>	<b>57.9%</b>
PAROLE	8,352	40.2%	4,377	52.4%	3,975	47.6%
CONDITIONAL RELEASE	10,259	49.4%	3,946	38.5%	6,313	61.5%
MAXIMUM EXPIRATION	2,165	10.4%	421	19.4%	1,744	80.6%

Overall, 42% (8,744) of the 2015 releases were recommitted to DOCCS within three years of release; the return rate for the 2015 cohort was similar to the rate recorded for the 2014 releases. Since the 1996 cohort, the total return rate has been stable at approximately 40% (see **Figure 2.1** and **Appendix A**). Among the 2015 releases, 19% of the maximum expiration releases returned to DOCCS' custody within three years, compared to 38% of the conditional releases and 52% of the paroled releases. This relationship has been consistent since the release cohort of 1999. Individuals released due to the maximum expiration of their sentence return at a lower rate because they are not subject to return for violating the conditions of parole supervision.

## **SECTION TWO: RETURN RATES BY RELEASE TYPE AND READMISSION TYPE**

**Table 2** presents return rates by readmission type for the 2015 releases and for the cumulative release cohort of 1985-2015 releases (data for individual years are provided in **Appendix A**). Within three years of release, 33% of the 2015 releases were returned for violating the conditions of parole supervision and 9% returned with new felony convictions. Individuals can be returned to custody for violating the conditions of parole supervision for a variety of behaviors that result in warrant issuance. In addition to violating the specific conditions of parole supervision in an important respect, which can result in the issuance of a technical warrant, individuals can also be issued a warrant for absconding from supervision or for a new arrest. Additional information about warrant type associated with returns to prison can be found in the Department's annual Legislative Report on Community Supervision.<sup>7</sup>

The percentage of the cohort released by action of the Board of Parole has decreased over time; among the 2015 releases, 40% were released by the Board, compared to 63% of the combined 1985-2015 cohort.<sup>8</sup> Among both cohorts, paroled and conditionally released individuals were more likely to be returned for violating the conditions of parole supervision than for new felony convictions. Forty-four percent of the individuals released by the Parole Board during 2015 were returned for violating conditions of release within three years and 8% returned for new felonies. Similarly, among the 2015 conditional releases, 31% were returned for violating their conditions, while 7% were returned for new crimes. The return rate for violating the conditions of parole supervision was higher among parole releases than among conditional releases. This is because most conditional releases are first releases whereas the majority of parole releases are not<sup>9</sup>, and individuals who had no prior releases on their sentence (first releases) tend to have a lower recidivism rate than those who had prior releases.

---

<sup>7</sup> See "Community Supervision Legislative Report: 2019".

<sup>8</sup> Individuals who received determinate sentencing may be first-released on CR date or ME date. Since determinate sentencing was introduced for second violent felony offenders in 1995, first violent felony offenders in 1998, and drug offenders in 2005, the number of conditional releases has increased.

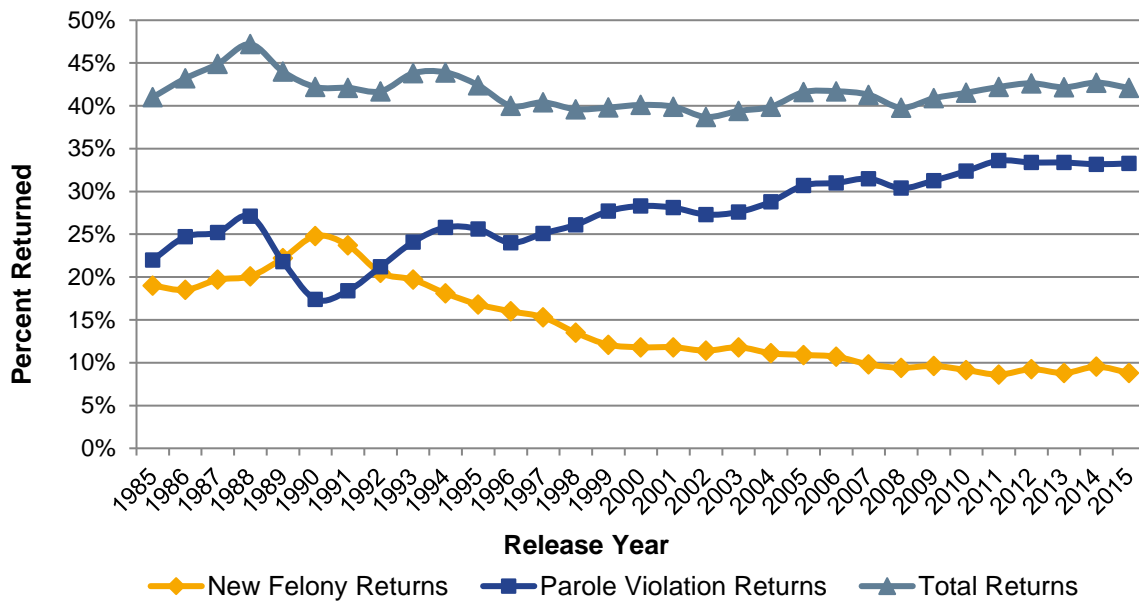

<sup>9</sup> For the 2015 release cohort, 96% of conditional releases were first releases on the sentence. Among parole releases, only 34% were first releases and 66% had prior releases on their sentence. By restricting the analysis to first releases only, the return rate for violating the conditions of release was higher among conditional releases (31%) than parole releases (28%). (See Section Ten for details).

**Table 2**  
**Returns for New Felony Offenses and For Violations of Parole:**  
**Releases in 2015 and 1985-2015**

RELEASE TYPE AND RELEASE COHORT	TOTAL RELEASED		TOTAL RETURNED	RETURNED: NEW COMMITMENT	RETURNED: PAROLE VIOLATION
	#	%			
<b>2015 RELEASES</b>	<b>20,776</b>	100.0%	<b>8,744</b>	<b>1,831</b>	<b>6,913</b>
% (return/release)	100.0%		42.1%	8.8%	33.3%
PAROLE	8,352	40.2%	4,377	681	3,696
% (return/release)	100.0%		52.4%	8.2%	44.3%
CONDITIONAL RELEASE	10,259	49.4%	3,946	729	3,217
% (return/release)	100.0%		38.5%	7.1%	31.4%
MAXIMUM EXPIRATION	2,165	10.4%	421	421	(Not Applicable)
% (return/release)	100.0%		19.4%	19.4%	
<b>1985-2015 RELEASES</b>	<b>730,180</b>	100.0%	<b>303,504</b>	<b>102,066</b>	<b>201,438</b>
% (return/release)	100.0%		41.6%	14.0%	27.6%
PAROLE	456,972	62.6%	203,493	64,515	138,978
% (return/release)	100.0%		44.5%	14.1%	30.4%
CONDITIONAL RELEASE	216,974	29.7%	87,096	24,636	62,460
% (return/release)	100.0%		40.1%	11.4%	28.8%
MAXIMUM EXPIRATION	56,234	7.7%	12,915	12,915	(Not Applicable)
% (return/release)	100.0%		23.0%	23.0%	

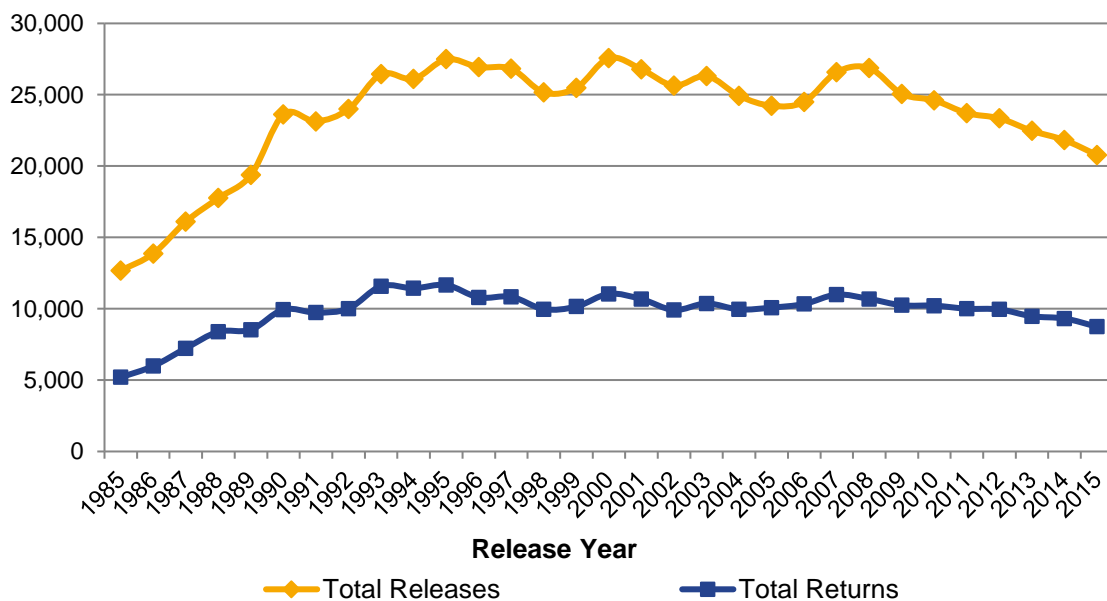

As shown in **Figure 2.1**, since the 1996 cohort, the total return rate has been fairly stable at approximately 40%, with increasing violation rates and decreasing new conviction rates (see **Appendix A**). The total return rate for the 2015 cohort was slightly lower than the rate for the 2014 cohort (42% versus 43%, respectively). Since 1990, parole violator return rates have generally increased, while new commitment rates have fallen. The lowest new commitment return rate (8.6%) occurred among 2011 releases; the rate for the 2015 release cohort (8.8%) decreased slightly from that of the 2014 release cohort (9.5%). Among the 2015 cohort, returns for violating the conditions of parole supervision accounted for 79% of all initial returns within three years.

**Figure 2.1**  
**Three-Year Return Rates by Return Type: 1985-2015**

Although the number of returns has decreased since 2008 because the number of releases from DOCCS custody has also decreased during that time period, the rate of return has remained fairly consistent, as shown in **Figure 2.2**.

**Figure 2.2**  
**Releases and Three-Year Returns: 1985-2015**

### SECTION THREE: TIME TO RETURN

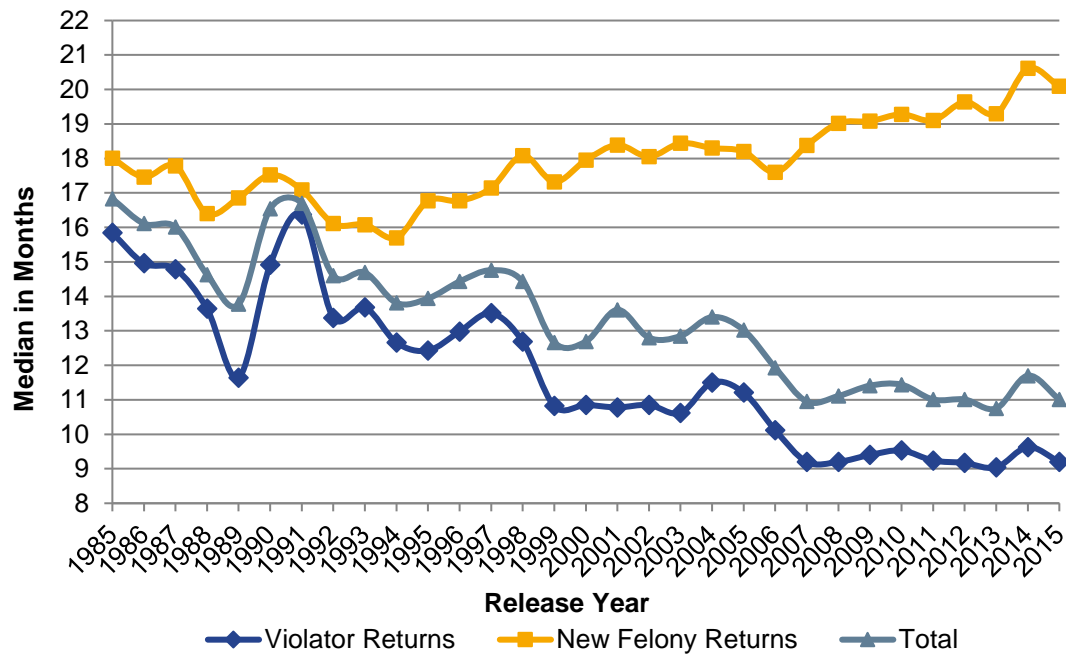

**Table 3** presents the number of months from release to readmission for the 2015 releases that returned to DOCCS' custody. The median time-to-return for the 2015 cohort was 11.0 months. This means 50% of returns to prison occurred within eleven months of release. Of all 2015 releases returned to DOCCS' custody within three years, 85% were returned within 24 months of their release. Those who were returned for violating the conditions of their parole supervision returned more quickly (9.2-month median) than releases who returned as new commitments (20.1-month median).

**Table 3**  
**Returns to Custody by Time to Return and Type of Return:**  
**Releases in 2015 and 1985-2015**

TIME BETWEEN RELEASE AND RETURN	TYPE OF RETURN					
	TOTAL RETURNED		RETURNED: NEW COMMITMENT		RETURNED: PAROLE VIOLATION	
	#	%	#	%	#	%
<b>2015 RELEASES</b>						
TOTAL RETURNED	8,744	100.0%	1,831	100.0%	6,913	100.0%
1-6 MONTHS	2,193	25.1%	67	3.7%	2,126	30.8%
7-12 MONTHS	2,539	29.0%	280	15.3%	2,259	32.7%
13-18 MONTHS	1,646	18.8%	433	23.6%	1,213	17.5%
19-24 MONTHS	1,071	12.2%	406	22.2%	665	9.6%
25-30 MONTHS	751	8.6%	347	19.0%	404	5.8%
31-36 MONTHS	544	6.2%	298	16.3%	246	3.6%
MEDIAN # MONTHS	11.0		20.1		9.2	
<b>1985-2015 RELEASES</b>						
TOTAL RETURNED	303,504	100.0%	102,066	100.0%	201,438	100.0%
1-6 MONTHS	49,553	16.3%	7,018	6.9%	42,535	21.1%
7-12 MONTHS	85,860	28.3%	21,507	21.1%	64,353	31.9%
13-18 MONTHS	66,480	21.9%	23,949	23.5%	42,531	21.1%
19-24 MONTHS	46,568	15.3%	20,117	19.7%	26,451	13.1%
25-30 MONTHS	31,844	10.5%	16,230	15.9%	15,614	7.8%
31-36 MONTHS	23,199	7.6%	13,245	13.0%	9,954	4.9%
MEDIAN # MONTHS	13.6		18.0		11.7	

As shown in **Figure 3**, since 1985, the median time to return dropped substantially among those returned for violating the conditions of parole supervision while it increased for new felon returns. The median time to return for new commitments increased from 15.7 months among the 1994 release cohort (shortest recorded) to 20.6 months among the 2015 release cohort (longest recorded).

**Figure 3**  
**Trends in Time to Return by Type of Return: 1985-2015**

## SECTION FOUR: RETURN RATES BY GENDER

Ninety-four percent of the 2015 releases were males (see **Table 4**). Since females tend to have a slightly shorter length of stay in DOCCS' custody, they are slightly overrepresented in the release cohort compared to an under custody population.<sup>10</sup> Consistent with previous release cohorts, the rate of return for women released in 2015 was substantially lower than the return rate for men (31% compared to 43%). Among females who returned to DOCCS' custody, 88% returned for parole violations and 12% returned for new offenses. For males who returned to DOCCS' custody, 79% returned for parole violations and 21% returned for new crimes.

Return rates for the 1985-2015 cohort were similar to the 2015 release cohort; females had overall lower return rates than males (29% compared to 42%). For both females and males, the new commitments return rate was higher for the 1985-2015 release cohort than for the 2015 release cohort.

**Table 4**  
**Returns to Custody by Gender:**  
**Releases in 2015 and 1985-2015**

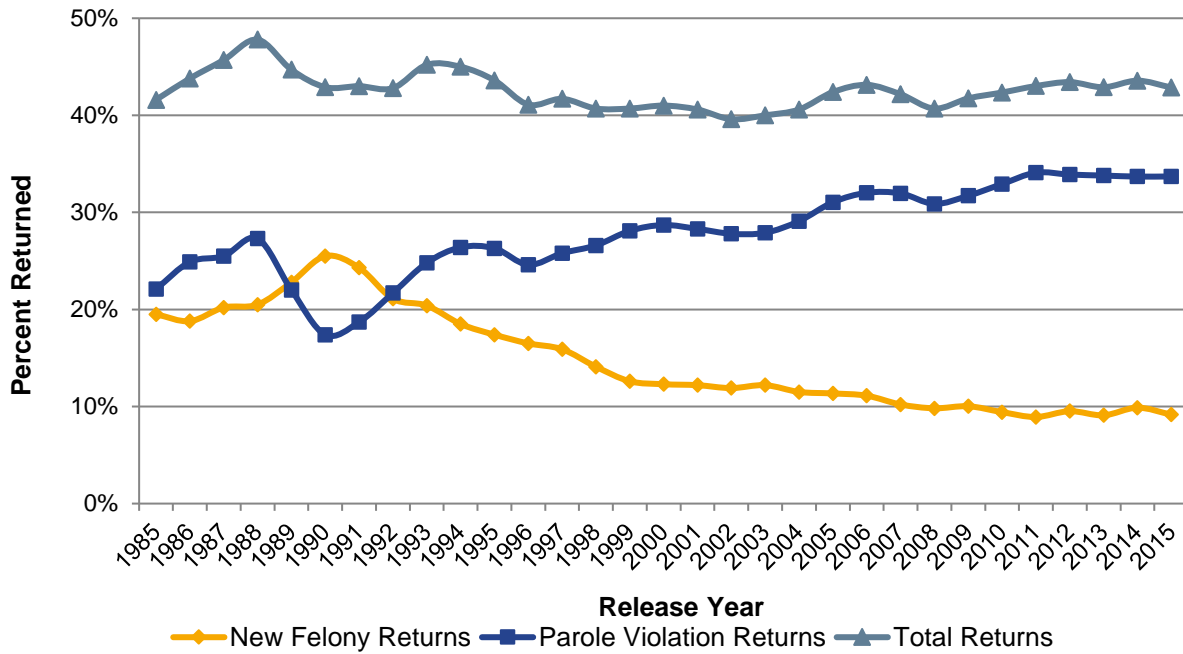

RELEASE TYPE AND RELEASE COHORT	TOTAL RELEASED		TOTAL RETURNED		RETURNED: NEW COMMITMENT		RETURNED: PAROLE VIOLATION	
	#	%	#	%	#	%	#	%
<b>2015 RELEASES</b>	<b>20,776</b>	<b>100.0%</b>	8,744	42.1%	1,831	8.8%	6,913	33.3%
MALES	<b>19,435</b>	<b>93.5%</b>	8,331	42.9%	1,781	9.2%	6,550	33.7%
FEMALES	<b>1,341</b>	<b>6.5%</b>	413	30.8%	50	3.7%	363	27.1%
<b>1985-2015 RELEASES</b>	<b>730,180</b>	<b>100.0%</b>	303,504	41.6%	102,066	14.0%	201,438	27.6%
MALES	<b>680,383</b>	<b>93.2%</b>	288,893	42.5%	98,211	14.4%	190,682	28.0%
FEMALES	<b>49,797</b>	<b>6.8%</b>	14,611	29.3%	3,855	7.7%	10,756	21.6%

Returns by gender for individual year cohorts are presented in **Appendix B**.

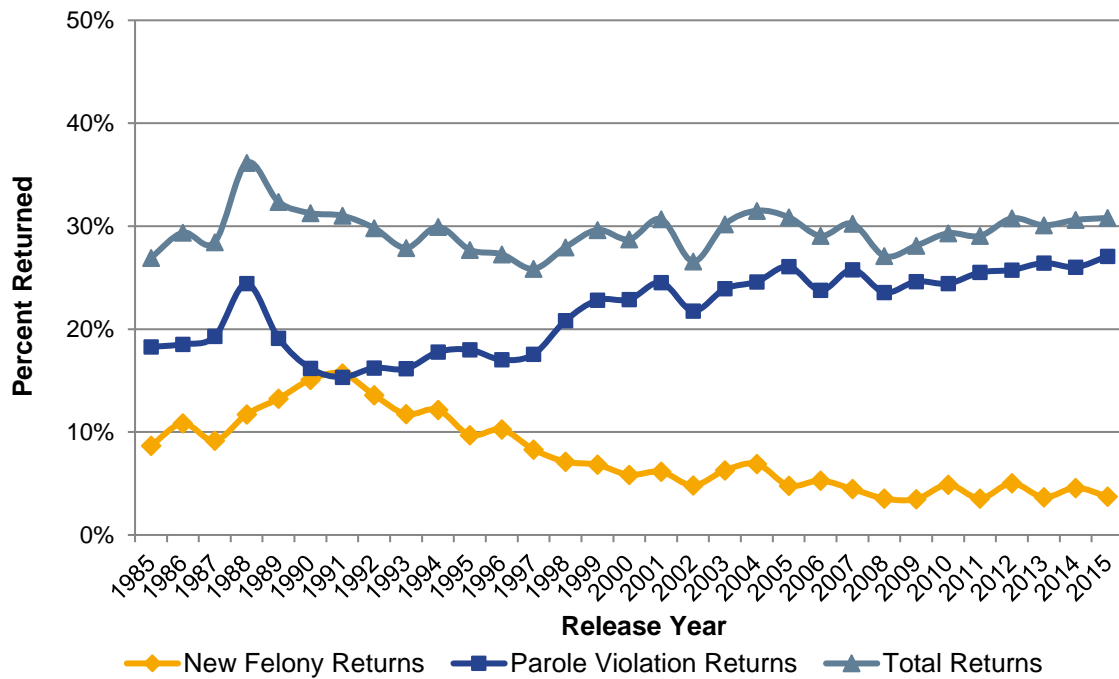

On the next page, the trends are illustrated graphically. Since the early 1990s, parole violator return rates have generally been increasing, while new felony return rates have generally been declining. The new felony return rate among males decreased slightly from 10% among 2014 releases to 9% for the 2015 cohort. Among females, the return rate for new felonies also decreased between 2014 and 2015 (5% to 4%).

<sup>10</sup> On December 31, 2015, 95% of the incarcerated individuals under custody were male and 5% were female.

**Figure 4.1**  
**Return Rates among Male Releases: 1985-2015**

**Figure 4.2**  
**Return Rates among Female Releases: 1985-2015**

## SECTION FIVE: RETURN RATES BY RELEASE CRIME

**Table 5** presents data on the most serious commitment crime<sup>11</sup> for releases in the 2015 cohort. Crimes are broken out by major crime categories. Violent Felony Offenses (VFOs) include legislatively-designated violent crimes that invoke certain sentencing mandates and Class A crimes. Other violent or coercive crimes are included under the heading Other Coercive Offenses. Additional major categories include Drug Offenses, Property and Other Offenses, and two headings that denote legal status for young people, Youthful Offenders and Juvenile Offenders.<sup>12</sup>

The total return rates were 44% for Violent Felony offenders, 43% for Other Coercive offenders, 36% for Drug offenders, 43% for Property and Other offenders, 44% for Youthful Offenders, and 35% for Juvenile Offenders.

Among individual crime categories, there were marked differences in the rates of return. Individuals convicted of offenses such as burglary and robbery tended to have the highest rates of return, with about half returning within three years of release. More specifically, the highest rates of return were observed for Burglary 2<sup>nd</sup> (54%), Other VFO Sex Offenses (54%), Other Sex Offenses (54%), Robbery 2<sup>nd</sup> (53%), Burglary 3<sup>rd</sup> (52%), and Possession of Stolen Property (51%). Offenders least likely to return within three years were convicted of Manslaughter 2<sup>nd</sup> (11%), Murder (13%), and Criminally Negligent Homicide (13%). Results for the 1985-2015 cohort can be observed in **Appendix C**. Results for the individual release cohorts between 1985 and 2015 are presented in **Appendix D**.

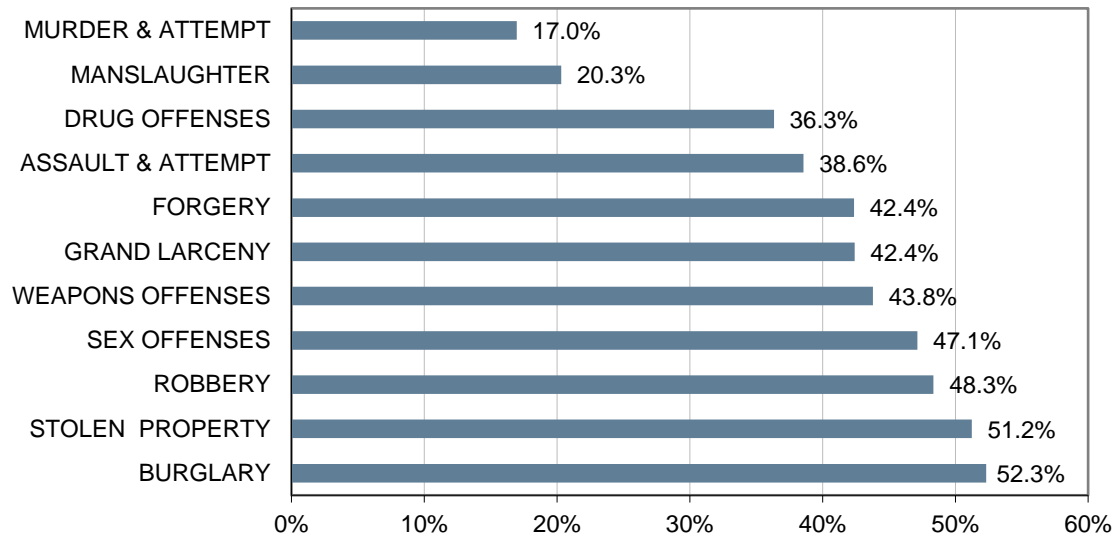

**Figure 5.1** presents return rates for selected groupings of crime categories. While individuals with crimes such as burglary, robbery, and stolen property offenses had the highest return rates, individuals released after serving time for murder and manslaughter returned at the lowest rates.

---

<sup>11</sup> "Most serious commitment crime" is determined by the crime with the longest maximum sentence.

<sup>12</sup> A "Youthful Offender" (YO) is a 14- to 18-year-old who commits a crime but is given Youthful Offender status at sentencing by the judge. A YO record is not a criminal record and is automatically sealed. A "Juvenile Offender" (JO) is a 13- to 15-year-old who commits a serious felony or other violent act. Convicted Juvenile Offenders can be punished like adults, and their record is not sealed unless the case is sent to Family Court.

**Figure 5.1**  
**Return Rates for Selected Crimes: 2015 Releases**

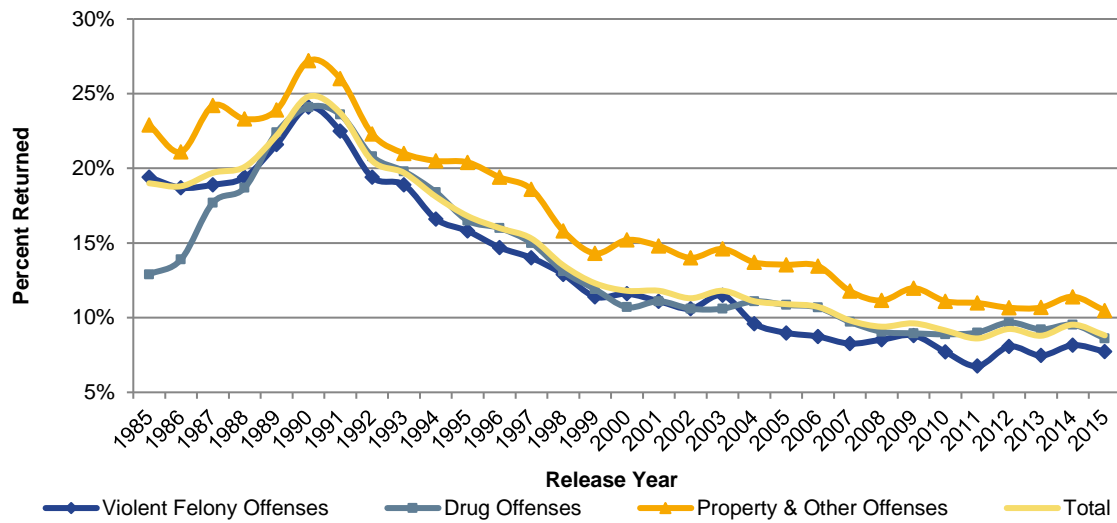

**Figure 5.2** shows trends in total return rates of the annual release cohorts between 1985 and 2015, for select major crime categories and overall. Property and Other offenders consistently returned at a higher rate than offenders in the other crime categories until 2009. The return rate for Violent Felony Offenders (VFOs) decreased in the late 1990s and early 2000s and increased until 2012, then leveled off. Since 2011, the return rate for VFOs was higher than the return rate for Property and Other offenders.

Between 1996 and 2006, the return rates for drug offenders generally increased. While drug offenders returned at a lower rate than the other crime categories, their return rate exceeded the rate for violent felony offenders between 2000 and 2004. The return rate for drug offenders peaked in the 2006 release year and generally decreased thereafter. Beginning with the 2008 release cohort, drug offenders showed the lowest return rates among all crime categories.

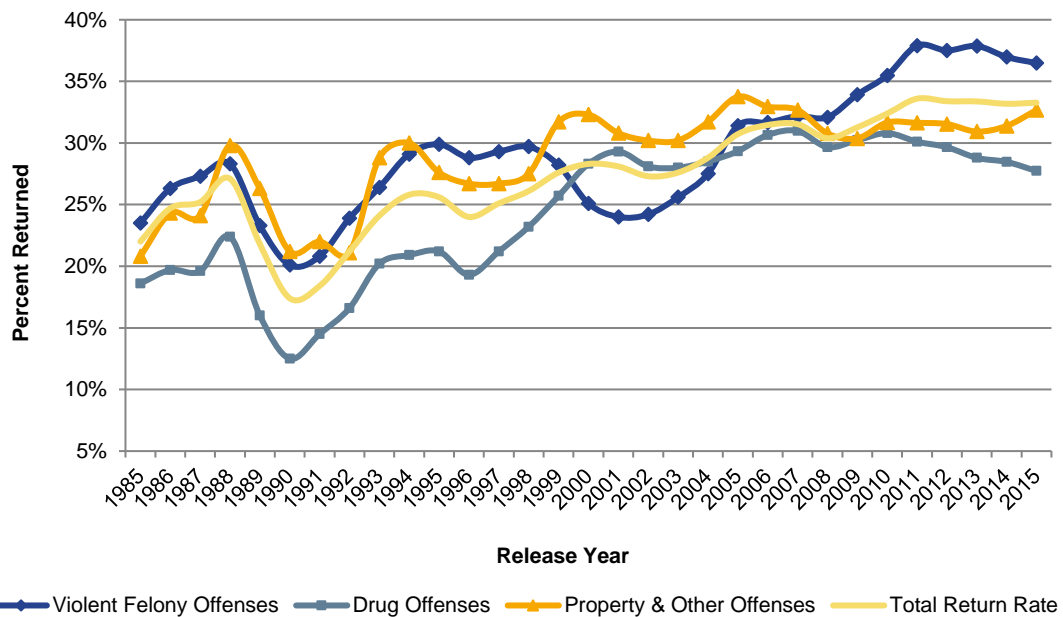

**Figures 5.3** and **5.4** illustrate some differences in return trends based on type of return. New commitment returns generally declined for every type of offender since 1990. Parole violation return rates have generally increased since 1990. The parole violation return rate among violent offenders increased from the lowest return rate crime category in the early 2000s to the highest return rate crime category beginning in 2008.

**Figure 5.4**  
**Trends in Parole Violation Returns by Select Crime Categories: 1985-2015**

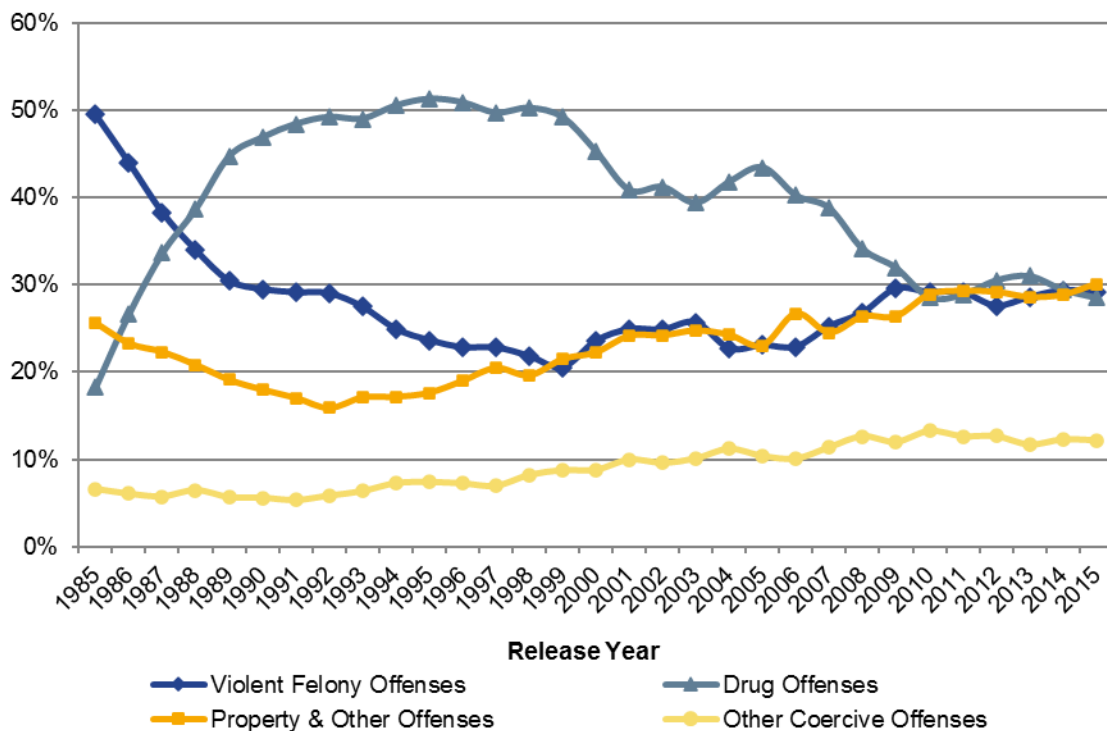

## SECTION SIX: READMISSION CRIMES

Among the 20,776 individuals in the 2015 release cohort, 1,831 (8.8%) were returned to DOCCS' custody within three years of release following conviction for a new felony offense. **Figure 6** and **Table 6** present the crimes for which these individuals returned to DOCCS' custody. Thirty percent of the 2015 releases who returned within three years for new felony convictions were convicted of property or other offenses, 29% were returned for violent felony offenses, 29% were returned for drug offenses, and 12% were returned for other coercive offenses.

**Table 6** also shows new commitment returns for the combined 1985-2015 release cohort. The combined release cohort most often returned for drug offenses (42%), although the return rate for drug offenses has decreased since the 1990s (see **Figure 6**). The return rate for violent felonies decreased until 1999 and increased moderately since then (29% in 2015).

The gap between the proportion of individuals returned for committing drug offenses and the proportion returned for violent offenses narrowed significantly since the mid-1990s. Among 1995 releases, 51% returned for drug offenses and 24% returned for violent offenses. Among 2015 releases, the return rate for both drug offenses and violent offenses was 29%. The return rate for committing other coercive offenses remained the lowest among the different crime types. **Appendices E.1 and E.2** show return crimes by release crimes for the 2015 and 1985-2015 cohorts.

## SECTION SEVEN: RETURN RATES BY AGE AT RELEASE

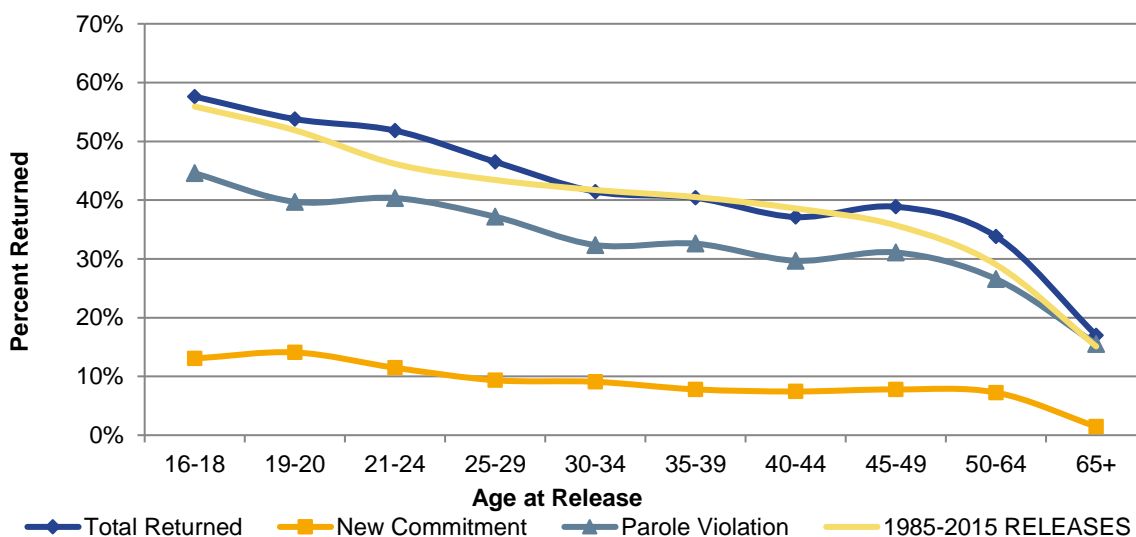

The relationship between return rates and age at time of release is illustrated in **Figure 7** and **Table 7.1**.<sup>13</sup> Since 1985, the average age of releases increased, from 29 among 1985 releases, to 36 among 2015 releases.

Among 2015 releases, 54% of the individuals who were under 21 when released returned to DOCCS' custody within three years, while 42% of those 21 years old or older returned to DOCCS' custody (see **Table 7.1**). Generally, return rates declined as age at release increased, with one exception—similar to recent release cohorts, return rates slightly increased for individuals in their mid- to late-forties.

The data for the aggregate 1985-2015 cohort shows a steady decline in return rate as the age at release increases. **Appendix F** presents return rates by age at release for the individual 1985-2015 release cohorts.

**Table 7.2** shows new commitment returns for the 2015 release cohort by age group. Individuals aged 50 or older who returned to prison for committing a new crime were most likely to return for committing non-violent Property and Other crimes (49%). The highest return rates for individuals under age 50 were for Violent Felony Offenses (30%) and Drug Offenses (30%).

**Figure 7**  
**2015 Return Rates by Age at Release**

<sup>13</sup> Of the 2015 release cohort, 3% were under age 21. This is comparable to the composition of incarcerated individuals under custody as of December 31, 2015, when 3% of the individuals were under 21.

## SECTION EIGHT: RETURN RATES BY ETHNICITY

The ethnic distribution of the 2015 and 1985-2015 release cohorts is presented below in **Table 8**. Of the 2015 releases, 46% were African-American, 28% were White, and 23% were Hispanic. These percentages are similar to those of the under custody population at the end of 2015.<sup>14</sup>

The highest return rate among the 2015 cohort was found for African-American releases (45%); 42% of the White and 35% of the Hispanic releases returned. Among the 1985-2015 aggregate cohort, the return rate was the highest for African-American releases (46%), followed by Whites (38%) and Hispanics (37%). While the return rate among African-American releases has been relatively stable since 1985, the rate among White releases has increased and the rate among Hispanic releases has decreased. (See **Appendix G** for data on ethnicity for individual years.)

**Table 8**

## SECTION NINE: RETURN RATES BY CRIMINAL HISTORY

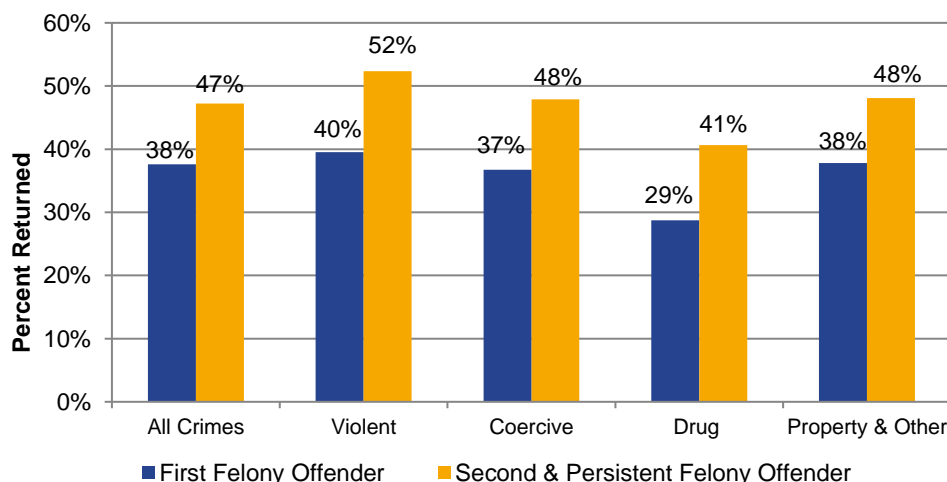

### PREDICATE FELONY OFFENDERS

Since 1973, New York State law has provided more severe penalties for a person convicted as a second felony offender. The basic provisions of the second felony offender law mandated an indeterminate prison sentence with a minimum term equal to one-half of the maximum (compared to a limit of one-third the maximum for first felony offenders). In 1995, the New York State Legislature passed the Sentencing Reform Act, which increased the minimum sentence length for first-time violent felons from one-third to one-half of the maximum sentence and imposed a determinate sentencing structure for repeat violent felons. In 1998, the Legislature extended the determinate sentencing to first felony violent offenders and added a period of post-release supervision for violent offenders ranging from one to five years. In 2004, the Legislature again extended determinate sentencing to drug offenders.

Approximately 47% of the 2015 releases were originally sentenced as second felony offenders. Second felony offenders in the 2015 cohort had a higher return rate (47%) than first felony offenders (38%), both overall and within all four crime categories.

Below, **Figure 9** summarizes return data for broad crime categories by felony offender status. More detailed crime information is presented in **Table 9.1** on the following page. The highest rate of return for second felony offenders was found for releases who committed Violent Felony Offenses (52%). Among first felony offenders, the highest rate of return was found for Youthful Offenders (44%).<sup>15</sup> As shown in **Appendix H**, these patterns held true for the aggregate data.

**Figure 9:**  
**Return Rates by Felony Offender Status and Crime Category, 2015 Releases**

<sup>15</sup> Youthful Offenders can only be sentenced as first felony offenders.

**Table 9.1**

## PRIOR FELONY CONVICTIONS

**Table 9.2** presents return rates among individuals with varying numbers of prior felony convictions accumulated before they were admitted to DOCCS' custody for the current offense. Among 2015 releases, the return rate increased as the number of prior felony convictions increased. This pattern applied to both new commitment and parole violator returns. In the 2015 release year, nearly half (47%) of the releases with three or more prior felony convictions returned within three years, compared to about one-third (38%) of those with no prior conviction.

**Table 9.2**  
**2015 Releases: Number of Prior Felony Convictions by Type of Return**

NUMBER OF PRIOR FELONY CONVICTIONS	TOTAL RELEASED		TOTAL RETURNED	RETURNED:	
	#	%		NEW COMMITMENT	PAROLE VIOLATION
<b>TOTAL</b> % (return/release)	<b>20,776</b>	<b>100.0%</b>	<b>8,744</b> 42.1%	<b>1,831</b> 8.8%	<b>6,913</b> 33.3%

## SECTION TEN: RETURN RATES BY FIRST OR PREVIOUS RELEASE

**Table 10** presents a breakdown of first releases and individuals who had prior releases on their sentences for 2015 and 1985-2015 aggregate release cohorts.<sup>16</sup> In the 2015 release year, 63% of releases were first releases to the community, and 37% had been previously released from DOCCS. As shown in the table, individuals who had no prior releases on their sentence were less likely to return than individuals who had been previously released and returned (37% vs. 51%). These differences held for both new commitment and parole violator returns, and for the 1985-2015 releases.

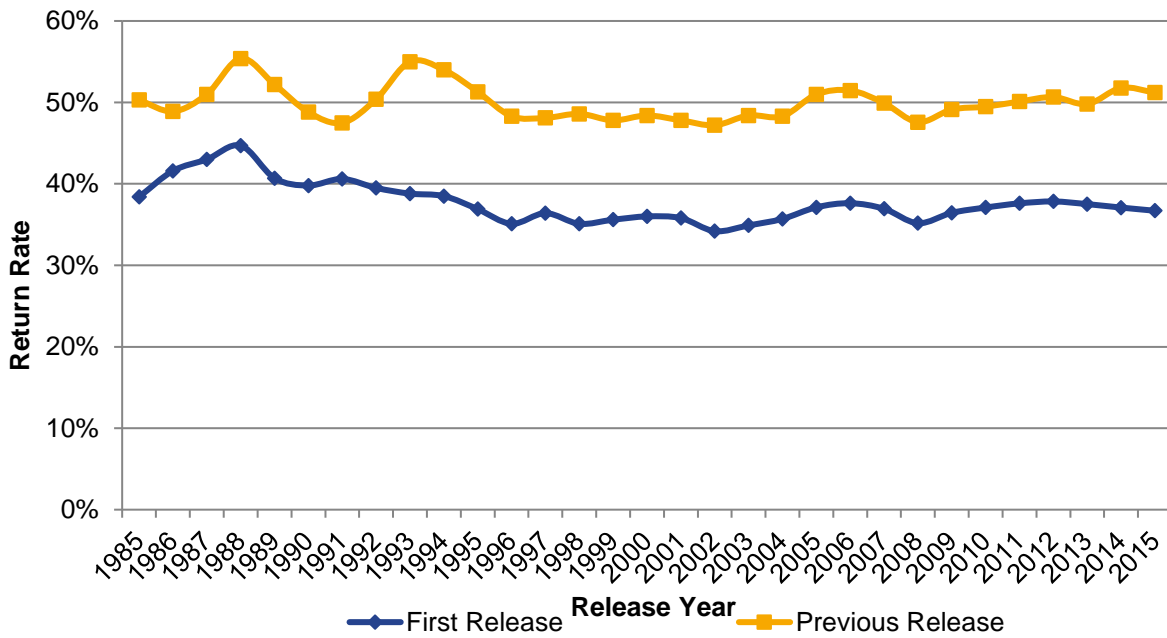

**Table 10**  
**Returns among First and Previous Releases**  
**Releases in 2015 and 1985-2015**

RELEASE STATUS	TOTAL RELEASED		TOTAL RETURNED	RETURNED:	
	#	%		NEW COMMITMENT	PAROLE VIOLATION
<b>2015 RELEASES</b>	<b>20,776</b>	<b>100.0%</b>	<b>8,744</b>	<b>1,831</b>	<b>6,913</b>
% (return/release)			42.1%	8.8%	33.3%
FIRST RELEASE	13,068	62.9%	4,796	939	3,857
% (return/release)			36.7%	7.2%	29.5%
PREVIOUS RELEASE	7,708	37.1%	3,948	892	3,056
% (return/release)			51.2%	11.6%	39.6%
<b>1985-2015 RELEASES</b>	<b>730,180</b>	<b>100.0%</b>	<b>303,504</b>	<b>102,066</b>	<b>201,438</b>
% (return/release)			41.6%	14.0%	27.6%
FIRST RELEASE	492,247	67.4%	184,836	62,448	122,388
% (return/release)			37.5%	12.7%	24.9%
PREVIOUS RELEASE	237,933	32.6%	118,668	39,618	79,050
% (return/release)			49.9%	16.7%	33.2%

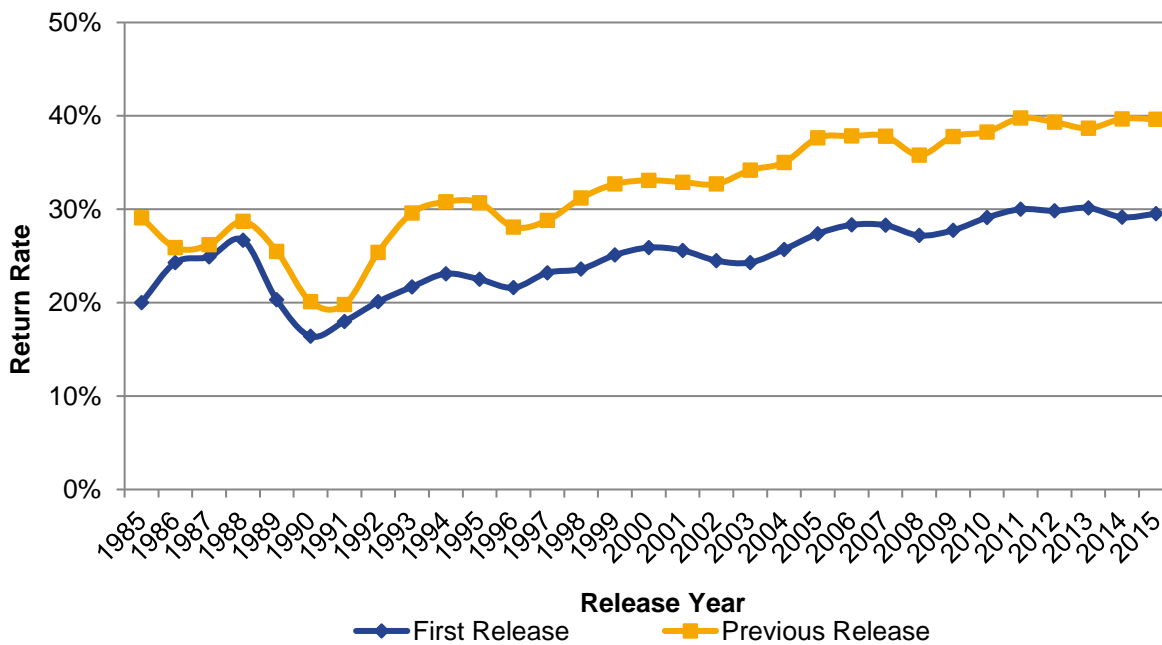

Trends in returns by prior release are shown in **Figure 10.1**, **Figure 10.2**, and **Figure 10.3**. The difference in return rates between first and previous releases has been consistent for new commitment returns over time. However, the gap in parole violation returns between first and previous releases widened considerably beginning with the 1992 cohort. The annual rates are presented in **Appendix I**.

<sup>16</sup> In this section, only prior releases on the sentence for which the individual was under custody are considered; previous sentences and their corresponding releases, if any, are not included.

**Figure 10.1**  
**Total Return Rates among First and Previous Releases, 1985-2015**

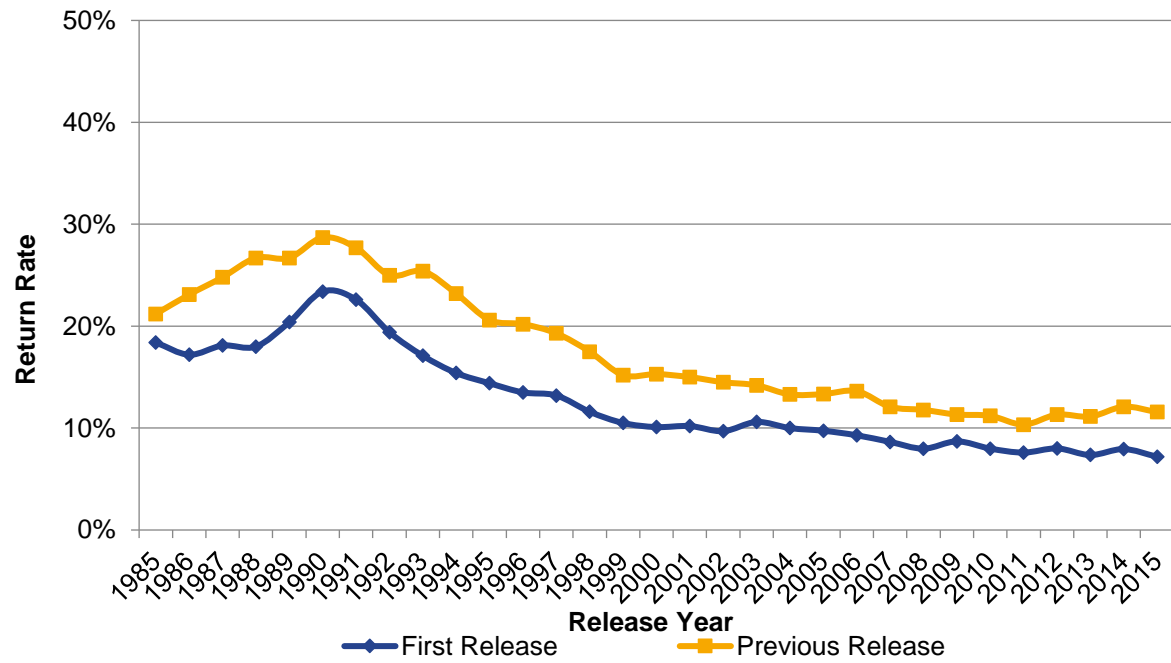

**Figure 10.2**  
**Parole Violation Return Rates among First and Previous Releases, 1985-2015**

**Figure 10.3**  
**New Commitment Return Rates among First and Previous Releases, 1985-2015**

## **SECTION ELEVEN: RETURN RATES BY REGION**

Just under half (42%) of the 2015 study population was originally committed from one of the five counties of New York City. Upstate Urban counties accounted for an additional 23%; 11% were committed from Suburban New York City counties, and the remaining 25% were committed from other areas of the state.

Among the 2015 releases, individuals from Upstate Urban counties had the highest return rate. Overall, 50% of the releases committed from Upstate Urban counties returned, compared to 46% of those from non-urban upstate (“Other New York State”) counties, 41% of releases from Suburban New York City, and 35% of the releases from New York City.

New conviction return rates varied narrowly among the regional groupings: ranging from 8% to 10%. Broome county had the lowest new conviction return rate (7%), while Schenectady had the highest new conviction return rate (17%).

Most of the Upstate Urban counties also had relatively high parole violation return rates, with an overall violator return rate of 41%, compared to 37% for Other New York State counties, 33% among the releases committed from Suburban New York City, and 27% for releases from New York City. Commitment counties with the highest violator return rates included Monroe (46%) and Erie (43%), both of which are Upstate Urban counties, while Queens had the lowest rate (24%).

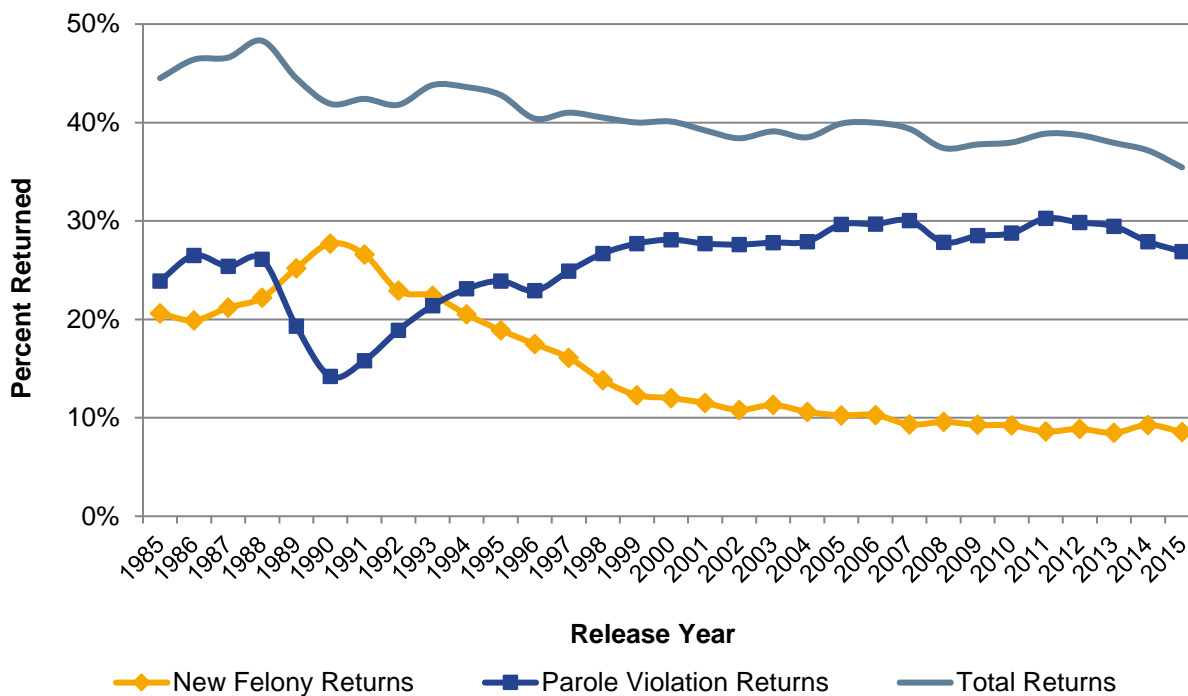

Trends in three-year return rates observed for the annual release cohorts differ by type of return and region, as presented in **Figures 11.1 - 11.4**. As shown in **Figure 11.1**, parole violator return rates among New York City commitments increased dramatically in the 1990s, almost doubling over the time period, while new commitment return rates had an equally dramatic drop. The total return rate has remained at around 40% over the last twenty years.

Among Suburban New York City counties, the return rate for parole violations increased since the late 1990s, with a sharp increase since 2008, while the rate for new commitments generally decreased. In Upstate Urban counties, the return rates for parole violations increased over the last ten years, while new commitment return rates decreased slightly. Among Upstate Urban releases, the gap between parole violator returns and new commitment returns increased sharply between 2009 and 2015. Among Other New York State counties, in the last ten years, the return rates for parole violations increased slightly, while the new commitment return rates decreased slightly (see **Figures 11.2, 11.3 and 11.4**).

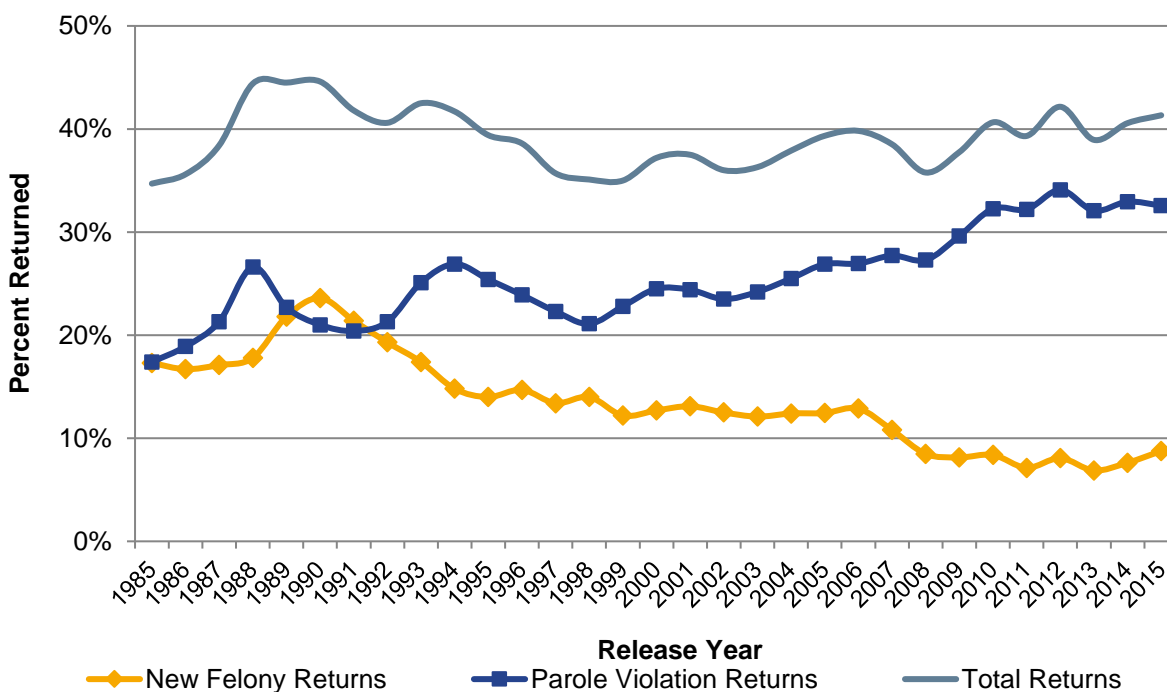

**Table 11**

## SECTION TWELVE: RETURNS OF DRUG OFFENDERS

**Table 12** presents return rates by release type and felony class<sup>17</sup> for individuals originally committed for a drug offense. Overall, 36% of the 4,472 drug offenders released in 2015 returned to DOCCS' custody within three years, including 28% as parole violators and 9% with new convictions.

Fifty-two percent of the drug offenders released in 2015 were convicted of drug sales; 48% were in DOCCS' custody for drug possession convictions. Offenders convicted of drug sales were more likely to return than those convicted of possession (38% compared to 34%). These differences were attributed to higher levels of parole violation returns among offenders convicted of drug sales (30%) compared to the rates among those convicted of possession (26%). The new felony return rate was the same for those released from DOCCS' custody for drug possession convictions as for drug sale convictions (9%). The trends in the return rates of drug offenders were presented in Section Five.

There was considerable variation in the return rates between drug felony classes; A-I and A-II drug felons returned at much lower rates than drug offenders convicted of less serious drug offenses. This may be a function of the fact that these serious drug felons spent more time incarcerated due to longer sentences and 66% of them were first releases.<sup>18</sup> Among the 1985-2015 drug release cohort, new felony returns were generally higher than were found for the 2015 cohort (14% compared to 9%) and returns for parole violations were lower (25% compared to 28%).

---

<sup>17</sup> New York grades felonies into classes ranging from the most serious, Class A-1, to the least serious, Class E. Sentence length is usually related to offense class.

<sup>18</sup> See Section Ten for discussions of return rates by first/previous releases.

## SECTION THIRTEEN: RETURN RATES OF VETERANS

**Table 13** presents a breakdown of releases who were identified as verified veterans of the United States Armed Forces and releases considered nonveterans. Verified veterans comprised only four percent of all 2015 releases, but they returned to prison at lower rates (33%) than nonveterans (42%). This difference in return rates held for both new commitment and parole violator returns.

**Table 13**  
**Returns Among Verified Veterans and Nonveterans**  
**Releases in 2015 and 2013-2015**

VETERAN STATUS	TOTAL RELEASED		TOTAL RETURNED	RETURNED:	
	#	%		NEW COMMITMENT	PAROLE VIOLATION
<b>2015 RELEASES</b>	<b>20,776</b>	<b>100.0%</b>	<b>8,744</b>	<b>1,831</b>	<b>6,913</b>
% (return/release)			42.1%	8.8%	33.3%
VERIFIED VETERANS	816	3.9%	273	55	218
% (return/release)			33.5%	6.7%	26.7%
NONVETERANS	19,960	96.1%	8,471	1,776	6,695
% (return/release)			42.4%	8.9%	33.5%
<b>2013-2015 RELEASES</b>	<b>65,062</b>	<b>100.0%</b>	<b>27,536</b>	<b>5,885</b>	<b>21,651</b>
% (return/release)			42.3%	9.0%	33.3%
VERIFIED VETERANS	1,964	3.0%	639	112	527
% (return/release)			32.5%	5.7%	26.8%
NONVETERANS	63,098	97.0%	26,897	5,773	21,124
% (return/release)			42.6%	9.1%	33.5%

## SECTION FOURTEEN: RETURN RATES BY TOTAL (STATE + JAIL) TIME SERVED

The average “total time served” (i.e., state time plus jail time) for the 2015 release cohort was 36.6 months and the median was 22.9 months.

The return rates by total time served are presented in **Table 14**. Those 2015 releases with total time served of 12-17 months had the highest return rate (46%) while those with total time served of 240 or more months had the lowest return rate (13%). Generally, as the total time served increased, the return rate decreased.

For new commitment returns, the highest return rate of 11% occurred among those who served the least amount of total time (less than 12 months) while those who served the longest total time (240 or more months) had the lowest return rate (1%). Return rates for new felony convictions generally declined with the amount of total time served. This pattern also generally held for returns for violating the conditions of release with the highest return rate occurring among those who served 18-23 months of total time (37%) and the lowest rate (12%) among those who served 240 or more months.

**Table 14**  
**Return Rates by Total (State + Jail) Time Served**  
**Releases in 2015**

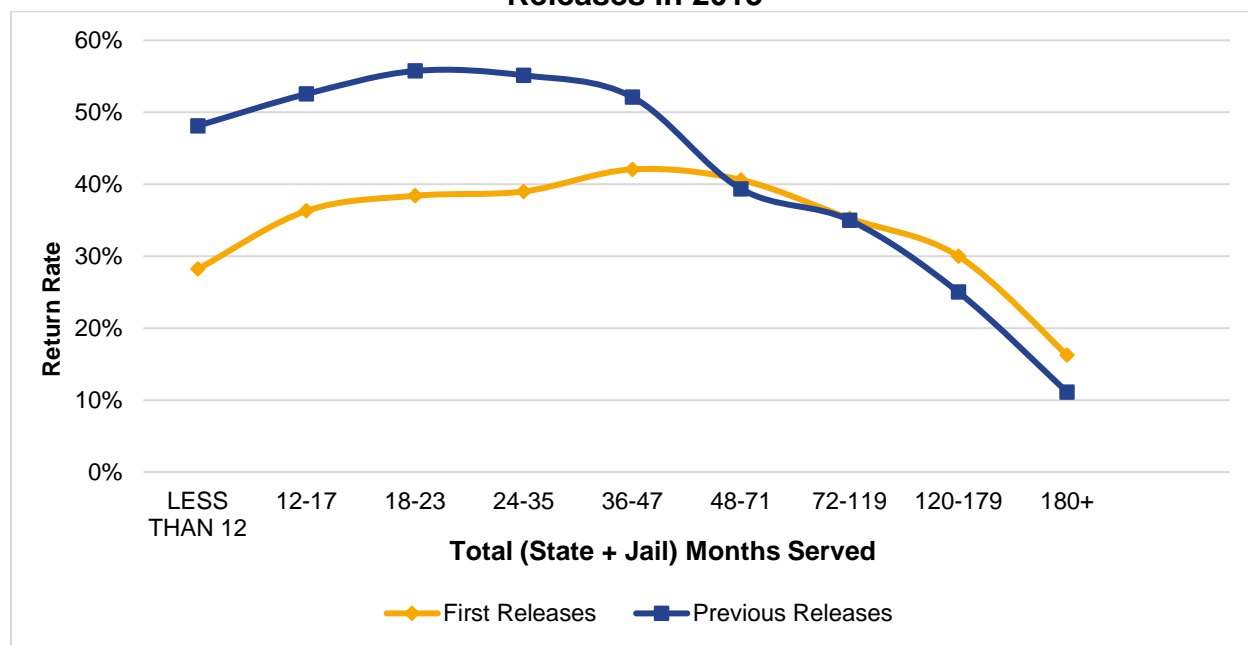

TOTAL (STATE + JAIL) TIME SERVED	TOTAL RELEASED		TOTAL RETURNED	RETURNED: NEW COMMITMENT	RETURNED: PAROLE VIOLATION
#	%				
<b>2015 RELEASES</b>	<b>20,776</b>	<b>100.0%</b>	<b>8,744</b>	<b>1,831</b>	<b>6,913</b>
% (return/release)			42.1%	8.8%	33.3%
LESS THAN 12 MONTHS	4,289	20.6%	1,850	458	1,392
% (return/release)			43.1%	10.7%	32.5%
12 - 17 MONTHS	3,681	17.7%	1,685	364	1,321
% (return/release)			45.8%	9.9%	35.9%
18 - 23 MONTHS	3,858	18.6%	1,711	278	1,433
% (return/release)			44.3%	7.2%	37.1%
24 - 35 MONTHS	3,714	17.9%	1,571	309	1,262
% (return/release)			42.3%	8.3%	34.0%
36 - 47 MONTHS	1,478	7.1%	636	144	492
% (return/release)			43.0%	9.7%	33.3%
48 - 71 MONTHS	1,827	49.2%	741	176	565
% (return/release)			40.6%	9.6%	30.9%
72 - 119 MONTHS	962	25.9%	339	74	265
% (return/release)			35.2%	7.7%	27.5%
120 - 179 MONTHS	398	10.3%	119	19	100
% (return/release)			29.9%	4.8%	25.1%
180 - 239 MONTHS	213	5.7%	47	7	40
% (return/release)			22.1%	3.3%	18.8%
240 OR MORE MONTHS	356	9.6%	45	2	43
% (return/release)			12.6%	0.6%	12.1%
MEAN TIME SERVED	36.6		30.7	28.8	31.2
MEDIAN TIME SERVED	22.9		21.1	20.0	21.3

As mentioned in Section Ten, 63% of the 2015 releases were released for the first time on their sentence, while 37% had been previously released from DOCCS. Total time served for those who had been previously released from DOCCS does not include the time served on the original sentence. It includes only state time and jail time served as a result of a return for a parole violation or a return to custody from another agency or a court-ordered discharge. Therefore, the possible total time served for individuals with a previous release was much shorter than for those released from DOCCS to the community on their sentence for the first time.

The average “total time served” (i.e., state time plus jail time) for the 2015 release cohort who were released for the first time on their sentence was 48.8 months and the median was 31.8 months, compared with previous releases who had an average “total time served” of 15.9 months and a median of 13.7 months.

Regardless of whether or not the release was a first release, return rates were higher for those who served the least amount of total time, as shown in **Figure 14**.

**Figure 14**  
**Return Rates among First and Previous Releases by Total (State + Jail) Time Served**  
**Releases in 2015**

## SECTION FIFTEEN: RETURN RATES BY COMPAS SUPERVISION LEVEL

The COMPAS Supervision model of Community Supervision was implemented in January 2012. The four supervision levels and the accompanying ratios (25:1, 40:1, 80:1, and 160:1) and reporting requirements were determined based on a number of risk factors, including risk of absconding, risk of any arrest, and risk of Violent Felony arrest. Individuals determined by the Article 10 process to require Strict and Intensive Supervision and Treatment are supervised at a 10:1 ratio and are included in the Level 1 category. Other sex offenders and mental health cases are also supervised at Level 1.

**Table 15** presents a breakdown of individuals released to Community Supervision by the first known COMPAS Supervision Level at release. Those who did not have a COMPAS assessment conducted at the time of release were considered pending and excluded from the analysis.

For 2015 releases to Community Supervision, the overall return rate was 45%. Those supervised at the highest level (Level 1) were returned at the highest rate (59%) and those supervised at the lowest level (Level 4) had the lowest return rate (19%). This finding was consistent for returns for both new commitments and parole violations, which reflects the predictive power of the COMPAS Supervision model, which is based on the risk of reoffending.

**Table 15**  
**Return Rates by COMPAS Supervision Level:**  
**Releases to Community Supervision in 2015 & 2013-2015**

COMPAS LEVEL	TOTAL RELEASED		TOTAL RETURNED	RETURNED:		RETURNED:
	#	%		NEW COMMITMENT	PAROLE VIOLATION	
<b>2015 RELEASES</b>	<b>18,383</b>	<b>100.0%</b>	<b>8,226</b>	<b>1,399</b>	<b>6,827</b>	
% (return/release)			44.7%	7.6%	37.1%

% (return/release)			58.5%	8.8%	49.7%	
Level 2	3,845	20.9%	2,027	340	1,687	
% (return/release)			52.7%	8.8%	43.9%	
Level 3	4,810	26.2%	1,890	364	1,526	
% (return/release)			39.3%	7.6%	31.7%	
Level 4	3,490	19.0%	659	144	515	
% (return/release)			18.9%	4.1%	14.8%	
<b>2013-2015 RELEASES</b>	<b>57,787</b>	<b>100.0%</b>	<b>26,053</b>	<b>4,569</b>	<b>21,484</b>	
% (return/release)			45.1%	7.9%	37.2%	
Level 1	18,273	31.6%	10,845	1,682	9,163	
% (return/release)			59.3%	9.2%	50.1%	
Level 2	12,868	22.3%	6,852	1,158	5,694	
% (return/release)			53.2%	9.0%	44.2%	
Level 3	15,675	27.1%	6,220	1,245	4,975	
% (return/release)			39.7%	7.9%	31.7%	
Level 4	10,971	19.0%	2,136	484	1,652	
% (return/release)			19.5%	4.4%	15.1%	

Note: Releases to Community Supervision with pending COMPAS assessments or for whom an exact match between COMPAS data and release data was not found were excluded from this table.

## **SECTION SIXTEEN: RETURN RATES FOR SUBSEQUENT RELEASE COHORTS**

Releases from 2016 and 2017 were followed so that more current trends in return rates could be examined. The 2016 releases were followed for two years, and the 2017 releases were followed for a one year period. The outcomes of these partial follow-ups are compared to the 2015 releases and presented in **Table 16**.

Compared to 2015, the percentage of releases who returned within 12 months after release was slightly lower for both the 2016 and 2017 release cohorts. The return rate for the 2015 cohort was 23%, 22% for the 2016 release cohort, and 21% for the 2017 release cohort. The return rate was stable for new commitments (2%), but the return rate for violating the conditions of parole was higher for the 2015 release cohort (21%) compared with the 2016 and 2017 release cohorts (20% and 19%, respectively).

The percentage of releases who returned within 24 months of release was slightly lower among the 2016 release cohort (35%) compared with the 2015 release cohort (36%). This difference in the return rates was attributed to a difference in returns for violating the conditions of parole (30% for the 2015 release cohort and 29% for the 2016 releases cohort).
